Property Identification -

		QUESTIONS	ANSWERS
		The dates when Respondent held any interest in, or conducted any business activity at the property;	11/10/1906
		A brief narrative description of the property and Respondent's primary activities;	South Park Bridge Demolition - Removal of basicular leaves and closure of bridge due to decay and disrepair
		The current King County Parcel Numbers for the property;	14th 16th Ave S across Duwamish River
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	RM 2.8 E to RM 4.3 E
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	Yes See KC-RSD1101001
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	None Known
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	No

2. ACTIVITIES AND CONDITIONS			ANSWERS
	a	Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	See ROW information
	b	Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See Document index
	c	Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See Document index
	d	Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	See Document index
	e	Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	See Document index
	f	Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	See Document index
	g	Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	See Document index
	h	Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	See Document index
	i	Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	See Document index
	j	Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, calking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	See Document index
	k	Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.	See Document index

	I	Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	See Document index
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document index
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document index
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	See Document index
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	See Document index
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	See Document index
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	See Document index
	o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	See Document index

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter "area of interest"). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	DOES NOT APPLY TO AIRPORT PROPERTY
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	DOES NOT APPLY TO AIRPORT PROPERTY
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			ANSWERS
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	
	a	Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
	b	Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
	c	If not already provided, identify and provide a last known address or phone number for all persons, including Respondent's current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5		Compliance with This Request	ANSWERS
	a	Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files and personal information.
	i	The name and currant job title of all individuals consulted; and	Ben Roark, Engineer II, Bridge and Structural Unit, Road Services Division

		ii	The location where all documents reviewed are currently kept.	Bridge Project files, 2nd floor 201 S Jackson

d. <u>Property Identification -</u>		
	<u>QUESTIONS</u>	<u>ANSWERS</u>
	The dates when Respondent held any interest in, or conducted any business activity at the property;	11/10/1906
	A brief narrative description of the property and Respondent's primary activities;	South Park Bridge Maintenance
	The current King County Parcel Numbers for the property;	14 - 16th Ave S Bridge over Duwamish River
	The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	RM 2.8 E to RM 4.3 E
	An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	Yes see document index - many
	An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	Yes
	An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	Yes

2. ACTIVITIES AND CONDITIONS			ANSWERS
a		Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	See ROW information
b		Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See Document index
c		Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	Records of Maintenance
d		Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	None Known
e		Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	Bridge maintenance in from mid 90's - present
f		Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	See KC-RSD1102006
g		Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	See KC-RSD1102007
h		Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	KC has maintained ownership
i		Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	See Document index
j		Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, calking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	See KC-RSD1102005
k		Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.	See Document index

			Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	
		i		See Document index
		i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See KC-RSD1102002-004
		ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document index
		iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	See Document index
		iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	See Document index
		m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	See Document index
		n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	See Document index
		o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	See Document index

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter “area of interest”). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	DOES NOT APPLY TO AIRPORT PROPERTY
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	DOES NOT APPLY TO AIRPORT PROPERTY
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			ANSWERS
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	
	a	Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
	b	Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
	c	If not already provided, identify and provide a last known address or phone number for all persons, including Respondent’s current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5		Compliance with This Request	ANSWERS
	a	Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files and personal information.
	i	The name and currant job title of all individuals consulted; and	Ben Roark, Engineer II, Bridge and Structural Unit, Road Services Division Tim Lane, Supervising Engineer, Bridge and Stuctural Unit, Road Services Division

		QUESTIONS	ANSWERS
		The dates when Respondent held any interest in, or conducted any business activity at the property;	11/10/1908
		A brief narrative description of the property and Respondent's primary activities;	South Park Bridge Replacement - begin construction Summer 20101
		The current King County Parcel Numbers for the property;	14 - 16th Ave S across the Duwamish River
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	RM 2.8 E to RM 4.3 E
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	Yes See document index
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	Yes
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	Yes

2. ACTIVITIES AND CONDITIONS			ANSWERS
a		Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	See Documents
b		Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See Documents
c		Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See Documents
d		Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	See Documents
e		Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	See Documents
f		Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	See KC-RSD1103010
g		Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	See Documents
h		Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	See Documents
i		Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	See Documents
j		Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, caulking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	See Documents
k		Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.	See KC-RSD1103007-009

	l	Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Documents
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Documents
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	See Documents
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	See KC-RSD1103002-006,012-017
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	See Documents
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	See KC-RSD1103001
	o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	See Documents

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter "area of interest"). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	DOES NOT APPLY TO AIRPORT PROPERTY
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	DOES NOT APPLY TO AIRPORT PROPERTY
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			ANSWERS
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	
	a	Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
	b	Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
	c	If not already provided, identify and provide a last known address or phone number for all persons, including Respondent's current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5		Compliance with This Request	ANSWERS
	a	Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files and personal information.
	i	The name and currant job title of all individuals consulted; and	Ben Roark, Engineer II, Bridge and Structural Unit, Road Services Division
	ii	The location where all documents reviewed are currently kept.	Bridge Project files, 2nd floor 201 S Jackson Map & Record Center, 1st floor 201 S Jackson

EPA 104e Request for information for LDW

- c. Designate = See b.

d. Property Identification -

		QUESTIONS	ANSWERS
		The dates when Respondent held any interest in, or conducted any business activity at the property;	11/10/1908
		A brief narrative description of the property and Respondent's primary activities;	Describe Project
		The current King County Parcel Numbers for the property;	Describe Property Location Description
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	RM 2.8 E to RM 4.3 E
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	Explain
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	

2. ACTIVITIES AND CONDITIONS			ANSWERS
a		Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	See Document Index
b		Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See KC-RSD1104002
c		Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See Document Index
d		Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	See Document Index
e		Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	See Document Index
f		Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	See KC-RSD1104001
g		Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	See Document Index
h		Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	See Document Index
i		Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	See Document Index
j		Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, calking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	See Document Index
k		Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.	See Document Index

	I	Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document Index
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document Index
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	See Document Index
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	See Document Index
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	See Document Index
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	See Document Index
	o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	See Document Index

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter “area of interest”). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	DOES NOT APPLY TO AIRPORT PROPERTY
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	DOES NOT APPLY TO AIRPORT PROPERTY
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			ANSWERS
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	
	a	Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
	b	Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
	c	If not already provided, identify and provide a last known address or phone number for all persons, including Respondent’s current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5	Compliance with This Request		ANSWERS
	a	Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files and personal information.
	i	The name and currant job title of all individuals consulted; and	Ben Roark, Engineer II, Bridge and Structural Unit, Road Services Division Turney, Environment Engineer, Environmental Unit, Road Services Division Julia
	ii	The location where all documents reviewed are currently kept.	Bridge Project files, 2nd floor 201 S Jackson Map & Record Center, 1st floor 201 S Jackson County Archives, 1215 E. Fir Street, Seattle, WA 98122 King

		<u>QUESTIONS</u>	<u>ANSWERS</u>
		The dates when Respondent held any interest in, or conducted any business activity at the property;	11/10/1908
		A brief narrative description of the property and Respondent's primary activities;	1930's era South Park Bridge over Duwamish pre-dates current bridge.
		The current King County Parcel Numbers for the property;	14 - 16th Ave S across Duwamish River
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	RM 2.8 E to RM 4.3 E
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	Yes See KC-RSD1104001
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	Unknown
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	Unknown

2. ACTIVITIES AND CONDITIONS			ANSWERS
a		Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	See Document Index
b		Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See KC-RSD1104002
c		Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See Document Index
d		Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	See Document Index
e		Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	See Document Index
f		Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	See KC-RSD1104001
g		Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	See Document Index
h		Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	See Document Index
i		Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	See Document Index
j		Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, calking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	See Document Index
k		Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.	See Document Index

	I	Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document Index
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document Index
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	See Document Index
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	See Document Index
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	See Document Index
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	See Document Index
	o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	See Document Index

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter "area of interest"). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	DOES NOT APPLY TO AIRPORT PROPERTY
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	DOES NOT APPLY TO AIRPORT PROPERTY
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			ANSWERS
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	
	a	Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
	b	Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
	c	If not already provided, identify and provide a last known address or phone number for all persons, including Respondent's current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5		Compliance with This Request	ANSWERS
	a	Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files
	i	The name and currant job title of all individuals consulted; and	Ben Roark, Engineer II, Bridge and Structural Unit, Road Services Division

				Bridge Project files, 2nd floor 201 S Jackson Map & Record Center, 1st floor 201 S Jackson King County Archives, 1215 E. Fir Street, Seattle, WA 98122
		ii	The location where all documents reviewed are currently kept.

		QUESTONS	ANSWERS
		The dates when Respondent held any interest in, or conducted any business activity at the property;	1/1/1914
		A brief narrative description of the property and Respondent's primary activities;	14th Ave S bridge pre-dates 1930's South Park Bridge circa 1914
		The current King County Parcel Numbers for the property;	14th Ave S across Duwamish River
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	RM 2.8 E to RM 4.3 E
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	Yes See KC-RSD1106004, 005
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	Unknown
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	Unknown

2. ACTIVITIES AND CONDITIONS			ANSWERS
a		Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	See Document Index
b		Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See Document Index
c		Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See Document Index
d		Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	See Document Index
e		Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	See Document Index
f		Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	See Document Index
g		Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	See Document Index
h		Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	See Document Index
i		Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	See Document Index
j		Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, calking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	See Document Index
k		Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.	See Document Index

	I	Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document Index
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document Index
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	See Document Index
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	See Document Index
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	See Document Index
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	See Document Index
	o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	See Document Index

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter “area of interest”). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
		iiAny spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
		iiOccurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	DOES NOT APPLY TO AIRPORT PROPERTY
		iiiRemediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	DOES NOT APPLY TO AIRPORT PROPERTY
		ivInvestigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			ANSWERS
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	
	a	Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
	b	Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
	c	If not already provided, identify and provide a last known address or phone number for all persons, including Respondent’s current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5	COMPLIANCE WITH THIS REQUEST		ANSWERS
	a	Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files
	i	The name and currant job title of all individuals consulted; and	Ben Roark, Engineer II, Bridge and Structural Unit, Road Services Division

				Bridge Project files, 2nd floor 201 S Jackson Map & Record Center, 1st floor 201 S Jackson King County Archives, 1215 E. Fir Street, Seattle, WA 98122
		ii	The location where all documents reviewed are currently kept.	

EPA 104e Request for information for LDW
King County Road Services Division

1. RESPONDENT INFORMATION

- a. King County Road Services Division
201 South Jackson Street, KSC-TR-0231
Seattle, WA 98104
- b.

i. Alan Andree

ii. Senior Engineer

iii. King County Road Services Division
201 South Jackson Street, KSC-TR-0231
Seattle, WA 98104
Phone =(206) 296-8086, Fax =(206) 205-5260
- c. Designate = See b.
- d. **Property Identification -**

		<u>QUESTIONS</u>	<u>ANSWERS</u>
		The dates when Respondent held any interest in, or conducted any business activity at the property;	January, 18 1890
		A brief narrative description of the property and Respondent's primary activities;	Add sidewalk, curb gutter, and drainage to 12th Ave S - March 2001
		The current King County Parcel Numbers for the property;	12th Ave S. from Dallas Ave S. to S. Southerly Street
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	2.75 - 6
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	None Known
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	None Known
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	No

2. ACTIVITIES AND CONDITIONS			ANSWERS
	a	Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	b	Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	c	Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	d	Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	e	Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	f	Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	g	Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	h	Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	i	Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	j	Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, calking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	k	Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.	Information found limited to available analysis worksheet (KC-RSD-1202001)

	l	Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	Information found limited to available analysis worksheet (KC-RSD-1202001)
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	Information found limited to available analysis worksheet (KC-RSD-1202001)
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	Information found limited to available analysis worksheet (KC-RSD-1202001)
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	Information found limited to available analysis worksheet (KC-RSD-1202001)
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	Information found limited to available analysis worksheet (KC-RSD-1202001)
	o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	Information found limited to available analysis worksheet (KC-RSD-1202001)

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter “area of interest”). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	DOES NOT APPLY TO AIRPORT PROPERTY
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	DOES NOT APPLY TO AIRPORT PROPERTY
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			WHAT WE HAVE
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	
	a	Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
	b	Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
	c	If not already provided, identify and provide a last known address or phone number for all persons, including Respondent’s current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5		Compliance with This Request	ANSWERS
	a	Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files, personal information, and Map and Records Center
	i	The name and currant job title of all individuals consulted; and	Alan Andree, Senior Engineer, Project Management and Design, Road Services Division

		ii	The location where all documents reviewed are currently kept.	PM&D Project Files, 2nd floor 201 S Jackson Maps and Records Center, 1st floor 201 S Jackson
--	--	----	---	---

EPA 104e Request for information for LDW
King County Road Services Division

Phone =(206) 296-8086, Fax =(206) 205-5260
- c.

Designate = See b.

d.	Property Identification -		
		Questions	Answers
		The dates when Respondent held any interest in, or conducted any business activity at the property;	November, 5th 1898
		A brief narrative description of the property and Respondent's primary activities;	S. 96th Street Phase II - Road Widening, addition of curb gutter, sidewalk, and street lights
		The current King County Parcel Numbers for the property;	S. 96th Street - 8th Ave S. to 400 feet west of Des Moines Ave S.
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	2.75 - 6
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	Yes see KC-RSD1203006, 009, 016
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	None Known
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	No

2. ACTIVITIES AND CONDITIONS			ANSWERS
	a	Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	ROW plans for the project have been included in the submittal of PDF's and are part of the project plans.
	b	Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	Technical reports for the project provide some description of existing conditions of property prior to construction.
	c	Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	Project construction plans are included in the submittal.
	d	Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	Project plans showing cut and fill quantities, permits and soils reports are included in the submittal.
	e	Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	Project included roadway excavation, drainage installation, utility installation/relocation, grading and paving.
	f	Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	The construction inspector for S 96 th Street Phase II stated that from what he could recall all soil that was hauled off was tested and those tests came back as contaminated but not hazardous. He stated that from what he could recall material leaving the job site was trucked to a disposal facility in Tacoma, tested, incinerated and then disposed. In addition excavated asphalt was disposed of. The project manager for S 96 th Street Phase I I stated that for Phase I and :Phase II high petroleum, high PH and cement mixed soil product has been removed the existing ditch. Additional information concerning substances identified in the project area is available in the soil sampling reports which are available in the files provided.
	g	Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	The construction inspector for SE 96 th Street Phase II stated that Contractors equipment (backhoes, excavation, loaders ect.) used hydraulics.
	h	Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	Files provided that contain documents. .
	i	Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	Copies of permits provided.
	j	Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, calking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	j. Construction inspector for S 96 th Street Phase II stated that Contractors equipment(backhoes, excavation, loaders ect.) used hydraulics. Soil and sampling reports have been submitted as part of the files provided.

	k	<div>Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.</div>	<div>Construction inspector for S 96th Street Phase II responded they were not aware of any storage tanks.</div>
--	---	---	---

	l	Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	Discharge permit obtained from the King County Industrial Waste Program authorizing the discharge of waste water from the construction operation to a sanitary sewer up to 5000 gallons per day from October 7, 2002 through October 31, 2002. Permit included in submittal of files.
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	The construction inspector for S 96 th Street Phase II stated that he did not recall any spills or clean ups in the area.
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	Soil was hauled off from the site and trucked to a disposal facility. See files provided for quantities and location.
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	Soil Sampling and reports provided as part of the files submitted.
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	j. No enforcement or permit violation actions were identified at the site.
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	. Storm drainage information included in files submitted for project.
	o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	Storm water studies including Technical Information Report and plans are included in files submitted for project.

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter "area of interest"). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	DOES NOT APPLY TO AIRPORT PROPERTY
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	DOES NOT APPLY TO AIRPORT PROPERTY
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			WHAT WE HAVE
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	
	a	Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
	b	Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
	c	If not already provided, identify and provide a last known address or phone number for all persons, including Respondent's current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5		Compliance with This Request	
	a	Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files and personal information.
	i	The name and currant job title of all individuals consulted; and	Alan Andree, Senior Engineer, Project Management and Design, Road Services Division Wei Huang, Senior Engineer, Project Management and Design, Road Services Division Paul Moore, Inspecting Engineer, Construction Services, Road Services Division
	ii	The location where all documents reviewed are currently kept.	PM&D Project files, 2nd floor 201 S Jackson Record Center, 1st floor 201 S Jackson 1215 E. Fir Street, Seattle, WA 98122 Map & King County Archives,

EPA 104e Request for information for LDW

King County Road Services Division

1. RESPONDENT INFORMATION

- a. King County Road Services Division
201 South Jackson Street, KSC-TR-0231
Seattle, WA 98104
- b. i. Alan Andree
ii. Senior Engineer
iii. King County Road Services Division
201 South Jackson Street, KSC-TR-0231
Seattle, WA 98104
Phone =(206) 296-8086, Fax =(206) 205-5260
- c. Designate = See b.

d. Property Identification -

		QUESTIONS	ANSWERS
		The dates when Respondent held any interest in, or conducted any business activity at the property;	Unknown
		A brief narrative description of the property and Respondent's primary activities;	96th Ave S - Phase I Intersection Improvements, addition of curb gutter, sidewalk, and street lights
		The current King County Parcel Numbers for the property;	96th Ave S. @ Des Moines Memorial Drive
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	RM 2.8 E to RM 4.3 E
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	Yes See KC-RSD1204005, 007, 012, 015, 017, 018
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	None Known
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	No

2. ACTIVITIES AND CONDITIONS			ANSWERS
	a	Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	a. ROW plans for the project has been included in the submittal of PDF's and are part of the project plans
	b	Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	b. Technical reports for the project provide description of existing conditions of property prior to construction.
	c	Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	c. Project construction plans are included in the submittal.
	d	Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	d. Project plans showing cut and fill quantities, permits and soils reports are included in the submittal.
	e	Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	e. Project was an intersection improvement project including constructing concrete curb, gutter and sidewalk along Des Moine Memorial Drive and at the intersection of S 96 th Street, a new box culvert along S 96 th Street, improvements of existing drainage, installation of a new water line along S 96 th Street, removal of contaminated soils and installation of clean borrow for roadway shoulder widening along south side of S 96 th Street. Paving and widening along Des Moines Memorial Drive.
	f	Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	f. The construction and design staff for S 96 th Street Phase I stated that Petroleum and PCB contaminated soils from the roadway shoulder along south side of S 96 th Street were excavated. Area for removal is shown in project plans. Additional information concerning substances identified is available in the soil sampling in the files provided. Disposal documentation is also provided. In addition roadway asphalt was excavated and removed.
	g	Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	g. The construction inspector for SE 96 th Street Phase I stated that hydraulic fluids and grease for contractors equipment were used..
	h	Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	h. Files provided containing documents.
	i	Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	i. Permits included in project submittal of files.
	j	Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, calking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	j. Construction inspector for S 96 th Street Phase II stated that Contractors equipment(backhoes, excavation, loaders ect.) used hydraulics. Soil and sampling reports have been submitted as part of the files provided.

	k	<div>Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.</div>	<div>The project construction inspection staff for S 96th Street Phase I did not identify any storage tanks in the area. The project engineer stated that there is a super fund site at the NW corner of 8th Ave S/S96th Street.</div>
--	---	---	--

	l	Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	The project inspector for S 96 th Street Phase I did not discover any hazardous materials, spills or clean up in the area. Identification of material prior to activity was included in the contract. Project designer stated that he was not aware of any hazardous materials but the soil is contaminated.
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	No violations, citations, or accidents were identified
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	Construction inspector confirmed that contaminated soils were removed as part of the project. Documentation of materials removed is included in the files submitted.
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	Sampling reports and analysis is included in the files submitted.
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	Enforcement actions during project duration were not identified.
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	n. See project plans provided for drainage information..
	o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	. Files containing dewatering plan, discharge permits, KC Surface Water Management memos have been submitted. See also Technical Information Report submitted as part of S 96 th Street Phase II.

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter "area of interest"). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	DOES NOT APPLY TO AIRPORT PROPERTY
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	DOES NOT APPLY TO AIRPORT PROPERTY
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			ANSWERS
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	ANSWER PROVIDED ABOVE
	a	Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
	b	Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
	c	If not already provided, identify and provide a last known address or phone number for all persons, including Respondent's current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5		Compliance with This Request	ANSWERS
	a	Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files and personal information.
	i	The name and currant job title of all individuals consulted; and	Alan Andree, Senior Engineer, Project Management and Design, Road Services Division Wei Huang, Senior Engineer, Project Management and Design, Road Services Division Vuctot Daggs, Supervising Engineer, Construction Services, Road Services Division
	ii	The location where all documents reviewed are currently kept.	PM&D Project files, 2nd floor 201 S Jackson 1st floor 201 S Jackson Seattle, WA 98122 Map & Record Center, King County Archives, 1215 E. Fir Street,

EPA 104e Request for information for LDW
King County Road Services Division

1. RESPONDENT INFORMATION

- a. King County Road Services Division
201 South Jackson Street, KSC-TR-0231
Seattle, WA 98104
- b. i. Alan Andree
ii. Senior Engineer
iii. King County Road Services Division
201 South Jackson Street, KSC-TR-0231
Seattle, WA 98104
Phone =(206) 296-8086, Fax =(206) 205-5260
- c. Designate = See b.

d. <u>Property Identification -</u>			
		<u>QUESTIONS</u>	<u>ANSWERS</u>
		The dates when Respondent held any interest in, or conducted any business activity at the property;	Unknown
		A brief narrative description of the property and Respondent's primary activities;	Des Moines Momorial Drive - Road Improvement repaving, addition of curb, gutter, sidewalk and lighting
		The current King County Parcel Numbers for the property;	Des Moines Momorial Drive S from S 128th to 96th Street S.
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	RM 2.8 E to RM 4.3 E
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	None Known
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	No
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	No

2. ACTIVITIES AND CONDITIONS			ANSWERS
a		Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	ROW plans for the project has been included in the submittal of PDF's and are part of the project plans
b		Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	Technical reports for the project provide description of existing conditions of property prior to construction.
c		Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	Project construction plans are included in the submittal.
d		Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	Project plans showing cut and fill quantities, permits and soils reports are included in the submittal.
e		Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	Project included restriping, constructing curb, gutter, sidewalk, drainage improvements, utility work, signalization and roadway paving.
f		Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	Roadway asphalt was excavated and removed. Construction inspection staff verified that besides the oils fluids and chemicals used in normal construction machinery no other waste materials were generated on the Des Moines Memorial Way project.
g		Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	The construction inspection team verified that the Contractor's machinery used oils, fluids and chemicals associated with normal construction activities.
h		Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	. Files provided containing available documents.
i		Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	Permits included in project submittal of files.
j		Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, calking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	Construction staff confirmed that oils, fluid, and chemicals used in machinery in normal construction activities were used in the Des Moines Memorial Drive Project
k		Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.	Construction staff confirmed that minimal above ground storage tanks for small tools were used on the project. Contractor used mobile oilers and fuel trucks for equipment and followed SPCC(Spill Prevention Control and Countermeasure Plan for secondary Containment.)

	l	Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	. Construction inspection staff confirmed that minor spills of hydraulic fluid were cleaned up per Contractor's SPCC Plan. Minor quantities were limited to their staging yard on S128th and Des Moines Memorial Drive. One particular spill of note during construction September 24 th , 2005 was cleaned up with spill kit prior to paving final lift of asphalt on Des Moines Memorial Drive just South of 22 nd Place S.
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See minor spills addressed in section l i above.
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	Construction inspection staff confirmed that besides fluids used in normal
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	Sampling and reports are included in submittal of PDF's for this project.
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	Actions during project duration were not identified.
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	See project plans for drainage design and additional drainage information in
	o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	. See PDF files submitted for this project including drainage memos and Spill

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter "area of interest"). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	ANSWER PROVIDED ABOVE
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			ANSWERS
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	ANSWER PROVIDED ABOVE
	a	Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
	b	Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
	c	If not already provided, identify and provide a last known address or phone number for all persons, including Respondent's current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5		Compliance with This Request	ANSWERS
	a	Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files and personal information.
	i	The name and currant job title of all individuals consulted; and	Alan Andree, Senior Engineer, Project Management and Design, Road Services Division Wei Huang, Senior Engineer, Project Management and Design, Road Services Division Vuctot Daggs, Supervising Engineer, Construction Services, Road Services Division Wes Chin, Resident Engineer, Construction Services, Road Services Division
	ii	The location where all documents reviewed are currently kept.	PM&D Project files, 2nd floor 201 S Jackson Map & Record Center, 1st floor 201 S Jackson King County Archives, 1215 E. Fir Street, Seattle, WA 98122

EPA 104e Request for information for LDW

King County Road Services Division

1. RESPONDENT INFORMATION

- a. King County Road Services Division
201 South Jackson Street, KSC-TR-0231
Seattle, WA 98104
- b. i. Alan Andree
ii. Senior Engineer
iii. King County Road Services Division
201 South Jackson Street, KSC-TR-0231
Seattle, WA 98104
Phone =(206) 296-8086, Fax =(206) 205-5260
- c. Designate = See b.
- d. Property Identification -

		QUESTIONS	ANSWERS
		The dates when Respondent held any interest in, or conducted any business activity at the property;	When was ROW established
		A brief narrative description of the property and Respondent's primary activities;	Describe Project
		The current King County Parcel Numbers for the property;	Describe Property Location Description
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	RM 2.8 E to RM 4.3 E
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	No
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	None Known
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	No

2. ACTIVITIES AND CONDITIONS			ANSWERS
	a	Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	Very limited information found under this title.
	b	Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	Very limited information found under this title.
	c	Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	Very limited information found under this title.
	d	Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	Very limited information found under this title.
	e	Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	Very limited information found under this title.
	f	Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	Very limited information found under this title.
	g	Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	Very limited information found under this title.
	h	Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	Very limited information found under this title.
	i	Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	Very limited information found under this title.
	j	Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, calking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	Very limited information found under this title.
	k	Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.	Very limited information found under this title.

	I	Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	Very limited information found under this title.
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	Very limited information found under this title.
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	Very limited information found under this title.
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	Very limited information found under this title.
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	Very limited information found under this title.
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	Very limited information found under this title.
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	Very limited information found under this title.
	o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	Very limited information found under this title.

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter "area of interest"). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	ANSWER PROVIDED ABOVE
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			ANSWERS
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	ANSWER PROVIDED ABOVE
	a	Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
	b	Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
	c	If not already provided, identify and provide a last known address or phone number for all persons, including Respondent's current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5		Compliance with This Request	ANSWERS
	a	Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files and personal information.
	i	The name and currant job title of all individuals consulted; and	Wes Chin, Resident Engineer, Construction Services, Road Services Division Alan Andree, Senior Engineer, Project Management and Design, Road Services Division

				PM&D Project files, 2nd floor 201 S Jackson Map & Record Center, 1st floor 201 S Jackson King County Archives, 1215 E. Fir Street, Seattle, WA 98122
	ii	The location where all documents reviewed are currently kept.

		<u>QUESTIONS</u>	<u>ANSWERS</u>
		The dates when Respondent held any interest in, or conducted any business activity at the property;	
			Various - depending when ROW was established
		A brief narrative description of the property and Respondent's primary activities;	
			ROW establishment documents in LWD
		The current King County Parcel Numbers for the property;	
			Area of interest as requested by EPA
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	
			RM 2.8 E to RM 4.3 E
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	
			Depends
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	
			Depends
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	
			Depends

2. ACTIVITIES AND CONDITIONS			ANSWERS
a		Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	See KC-RSD1401001-104
b		Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See Document Index
c		Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See Document Index
d		Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	See Document Index
e		Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	See Document Index
f		Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	See Document Index
g		Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	See Document Index
h		Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	See Document Index
i		Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	See Document Index
j		Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, calking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	See Document Index
k		Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.	See Document Index

	I	Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document Index
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document Index
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	See Document Index
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	See Document Index
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	See Document Index
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	See Document Index
	o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	See Document Index

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
a		Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter "area of interest"). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	DOES NOT APPLY TO AIRPORT PROPERTY
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	DOES NOT APPLY TO AIRPORT PROPERTY
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			WHAT WE HAVE
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	
a		Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
b		Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
c		If not already provided, identify and provide a last known address or phone number for all persons, including Respondent's current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5		Compliance with This Request	ANSWERS
a		Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files
	i	The name and currant job title of all individuals consulted; and	Nicole Keller, Engineer II,Road Services Unit, Road Services Division

				Road Services Project files, 2nd floor 201 S Jackson Map & Record Center, 1st floor 201 S Jackson
		ii	The location where all documents reviewed are currently kept.

		<u>QUESTION</u>	<u>ANSWERS</u>
		The dates when Respondent held any interest in, or conducted any business activity at the property;	Various
		A brief narrative description of the property and Respondent's primary activities;	Maps and Records - many - road establishment
		The current King County Parcel Numbers for the property;	Area of Interest as determined by EPA
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (<i>e.g.</i> 0.1 East or 4.3 West);	RM 2.8 E to RM 4.3 E
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	Unknown
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	Unknown
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	Unknown

2. ACTIVITIES AND CONDITIONS			ANSWERS
a		Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	See Document Index
b		Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See KC-RSD1405001- 065
c		Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See Document Index
d		Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	See Document Index
e		Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	See Document Index
f		Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	See Document Index
g		Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	See Document Index
h		Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	See Document Index
i		Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	See Document Index
j		Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, calking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	See Document Index

		<p>Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.</p>	<p>See Document Index</p>
	k		

		Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document Index
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See Document Index
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	See Document Index
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	See Document Index
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	See Document Index
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	See Document Index

		<p>Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.</p>	
	o		See Document Index

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter "area of interest"). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	DOES NOT APPLY TO AIRPORT PROPERTY
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	DOES NOT APPLY TO AIRPORT PROPERTY
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE

4. Information About Others			ANSWERS
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	
a		Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
b		Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
c		If not already provided, identify and provide a last known address or phone number for all persons, including Respondent's current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5		COMPLIANCE WITH THIS REQUEST	ANSWERS
a		Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files
i		The name and currant job title of all individuals consulted; and	Jennifer Aunan , Engineer tech II, Road Services Unit, Road Services Division
ii		The location where all documents reviewed are currently kept.	Road Services Project files, 2nd floor 201 S Jackson Map & Record Center, 1st floor 201 S Jackson

EPA 104e Request for information for LDW

King County Road Services Division

1. RESPONDENT INFORMATION

- a. King County Road Services Division
201 South Jackson Street, KSC-TR-0231
Seattle, WA 98104
- b. i. Linda Mott
ii Signal operations amd design
iii. King County Road Services Division
201 South Jackson Street, KSC-TR-0231
Seattle, WA 98104
Phone =(206) 263-6140, Fax =(206) 296-0176
- c. Designate = See b.

d. Property Identification -

		QUESTIONS	ANSWERS
		The dates when Respondent held any interest in, or conducted any business activity at the property;	Unknown
		A brief narrative description of the property and Respondent’s primary activities;	DesMoines Mermorial Drive -Signal Instillation
		The current King County Parcel Numbers for the property;	DesMoines Mermorial Drive - S. 103rd and S. 108th St.
		The approximate river mile along the LDW and the side of the LDW on which the property is situated (e.g. 0.1 East or 4.3 West);	RM 2.8 E to RM 4.3 E
		An indication of whether the property is or has been subject to any ongoing or past environmental cleanup or remedial actions and a brief description of any such actions;	Yes see KC-RSD3101003
		An indication of whether there are any remaining environmental concerns at the property and a brief description of any such concerns; and	None Known
		An indication of whether Respondent currently or in the past has used, generated, or stored or disposed of any hazardous substances at the property.	No

2. ACTIVITIES AND CONDITIONS			ANSWERS
	a	Provide all relevant documents and information regarding ownership or interests in the property including, but not limited to, copies of deeds, sales contracts, leases, easements, and /or licenses as appropriate.	See KC-RSD1206
	b	Provide all relevant documents and information concerning the condition of the property at the beginning of the relevant time period including existing structures (e.g. buildings, paving, seawalls, wharves, docks, marine ways), services (e.g. water, power, sewer), and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See KC-RSD1207
	c	Provide all relevant documents and information concerning any subsequent developments of the property including structures (new, remodeled, or demolished), services, and drainage systems. Include plans, blueprints, "as-builts" and photographs.	See KC-RSD1208
	d	Describe the source, volume, and content of any fill material placed on the property prior to and during the Relevant Time Period. Provide all relevant documents and information, including copies of any permits, pertaining to past dredging or filling on or adjacent to the property. Include all documentation and data from any sampling of dredged or fill materials obtained prior to, during, or subsequent to dredging or filling, as well as any other sediment sampling adjacent to the property.	See KC-RSD1209
	e	Provide a detailed description of the activities conducted on the property during the Relevant Time Period including the locations where those activities were carried out. Include process diagrams or flow charts of the activities.	See KC-RSD1210
	f	Provide a list identifying all hazardous substances or wastes (See Definition 13) including, but not limited to, raw materials, commercial products, building debris, and other wastes which were used, generated, stored or disposed of at the location during the Relevant Time Period.	See KC-RSD1211
	g	Provide information on the type(s) of oils or fluids used for lubrication of machinery or other industrial purposes, and any other chemicals or products which are or may contain hazardous substances which are or were used for facility operations.	See KC-RSD1212
	h	Provide all documents pertaining to sale, transfer, delivery, storage, and disposal of any hazardous substances, scrap materials, and/or recyclable materials. This may include, but not be limited to invoices, manifests, receipts, and bills of sale, showing delivery to or from the property, and use or presence on the property.	See KC-RSD1213
	i	Provide copies of all permits (current and past) relating to hazardous wastes, underground injection, air emissions, and water discharges including discharges to surface waters, storm drains, and sanitary sewers. Such permits include, but are not limited to any permit required or issued under the authority of the Clean Air Act, 42 U.S.C. §§ 7401 <i>et seq.</i> , the Clean Water Act, 33 U.S.C. §§ 1251 <i>et seq.</i> , the Safe Drinking Water Act, 42 U.S.C. §§ 300f <i>et seq.</i> , the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 <i>et seq.</i> , and any authorized or comparable state program.	See KC-RSD1214
	j	Provide all information on equipment which contains, contained or potentially contained polychlorinated biphenyls (PCBs), including, but not limited to, transformers or other electrical and/or hydraulic equipment that may have contained PCBs. Further, provide all information on any additional PCB containing materials (including, but not limited to, hydraulic fluids, sealants, compressor oils, paints, caulking, etc.) used or in use. Include documents relating to and a description of the materials, management of these materials, disposal methods, and any investigations, reports, and sampling regarding the materials. Also include any additional documents, data, or communications related to the sources of PCBs found in storm drains, catch basins, sediment traps, and any other media. Include all documents or other information identifying specific Aroclors and/or congeners.	See KC-RSD1215
	k	Provide a description and any documentation of all past and present Underground and Above-ground Storage Tanks (USTs and ASTs) at the property including storage tank capacities, materials stored, transportation of materials to and from the storage tanks, any spills, leaks, or other releases related to the storage tanks and transfer of materials, information on the removal of storage tanks, and any contamination and remediation related to storage tanks.	See KC-RSD1216

	I	Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	
	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See KC-RSD1216
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	See KC-RSD1217
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	See KC-RSD1218
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	See KC-RSD1219
	m	Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	See KC-RSD1220
	n	Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	See KC-RSD1221
	o	Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.	See KC-RSD1222

3. ACTIVITIES AND CONDITIONS - Additional Areas of Interest			ANSWERS
	a	Provide all documents and information regarding the environmental conditions within the area of South 96 th Street between 4 th Ave. South and Des Moines Memorial Drive South (hereinafter "area of interest"). If parts or all of this area of interest are located outside of the Scope of Information Request, Respondent only needs to provide responsive information and documents to this specific request (3.a.). Further, Respondent must provide a unique identifier(s) for this request in order to list any responsive documents in the index as required in the Instructions. Environmental conditions include information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	ANSWER PROVIDED ABOVE
	ii	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the area of interest, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	ANSWER PROVIDED ABOVE
	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the area of interest. If Respondent has any knowledge of such occurrences at the area of interest, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the area of interest;	DOES NOT APPLY TO AIRPORT PROPERTY
	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the area of interest, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest; and	DOES NOT APPLY TO AIRPORT PROPERTY
	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the area of interest and surrounding area. If Respondent has any knowledge of such activities at the area of interest, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the area of interest.	ANSWER PROVIDED ABOVE
4. Information About Others			ANSWERS
		Provide a separate response to all requests in this section (3) for each uniquely identified property as identified by Respondent in question 1.d. above.	
	a	Describe any business relationship you may have had regarding the property or operations thereon with any other entities.	ANSWER PROVIDED ABOVE
	b	Provide the names and last known address of any tenants, lessees, and operators, the dates of their tenancy, and a description of the activities and exact locations of the activities they conducted while operating on the above mentioned property.	ANSWER PROVIDED ABOVE
	c	If not already provided, identify and provide a last known address or phone number for all persons, including Respondent's current and former employees or agents, other than attorneys, who have knowledge or information about the generation, use, purchase, storage, disposal, placement, or other handling of hazardous materials at, or transportation of hazardous materials to or from, the property.	ANSWER PROVIDED ABOVE
5		Compliance with This Request	ANSWERS
	a	Describe all sources reviewed or consulted in responding to this request, including, but not limited to:	Project files and personal information.
	i	The name and currant job title of all individuals consulted; and	Linda Mott, Signal Operations and Design Engineer, Traffic Operations, Road Services Division Alan Andree, Senior Engineer, Project Management and Design, Road Services Division
	ii	The location where all documents reviewed are currently kept.	Traffic Project files, 2nd floor 201 S Jackson Map & Record Center, 1st floor 201 S Jackson
